Any specialist in the family? : husband and father in law

Parents' Occupation :father is engineer and mother is school teacher

Goals & Aspirations:

How did you know about this course? : thru a friend

When you have passed all your exams, what sub specialty do you intend to pursue? Am already practicing as phaco and paed opht, I also look after cornea dept at our hospital

Please give your experience in ophthalmology. This will help me to assess you and guide better in the exams you wish to appear.

Been into ophthalmology practice since past 13 years. Have presented several papers at national and state level conferences and one of my videos is also accepted in the ESCRS

Something special you want me to know about you. I am giving this exam after a gap of 13 years from academics. I don't want to fail as I cant spare time to give these exams again and again, considering the busy practice and kids school and other commitments.

Also I am a sportsman and I do well under pressure.

I strive to answer all my students in 24 hours. If you do not receive a reply, send the mail again. :

We shall start the course as soon as I receive the registration form.
